

End of Life Notice

Notification: CN-1004A
Issue Date: April 29, 2024

To: Our valued customers

Overview: This notification is to communicate that Superior Sensor Technology has discontinued the EB01-I2C and EB01-SPI evaluation boards and offering the EB02 as a replacement.

Discontinued Product(s): EB01-I2C
EB01-SPI

Replacement Product(s): EB02 (replaces both EB01 products)

Details: Production of the EB01-I2C and EB01-SPI has stopped. The EB02 is a direct replacement with the following enhancements:

- Supports both SPI and I2C with the single platform.
- Increased data transfer rates suitable for full speed sensor evaluation for all part series.

All Superior pressure sensors will work with the EB02 board utilizing the updated software that is included with the evaluation board or available on our website at <https://superiorsensors.com/support/>.

Any existing inventory of EB01-I2C or EB01-SPI should continue to be offered for sale. Superior Sensor will continue to support these evaluation boards for an extended period of time.

If you have any open orders, you will contacted within 15 days for the disposition and/or options pertaining to these order(s).

Please contact your local sales representative or email us at info@superiorsensors.com if there are any questions.

Thank you for your attention.

Sincerely,

Superior Sensor Technology
