

SEEME - 1080p HD USB Webcam

Enterprise grade USB camera with dual microphone array at consumer price point

The SEEME HD USB camera is **ideal for remote/home office users** who want to look and sound their best at a budget-friendly price. Optimized for laptop use, the SEEME connects through USB 2.0 without having to load any drivers. The **dual linear digital microphone array** was designed for optimal pickup in a small workspace while providing great audio clarity for the remote-side audience.

With 1080p resolution, 2MP lens, and a 75° Field of View (FOV) users can look their best for any meeting. Resolutions are supported from 640x480 up to 1920x1080 making the **SEEME operational with every major video conferencing or Unified Communication (UC) platform**. While this is a very affordable webcam, it is not short on features found in much more expensive offerings. With Automatic Exposure Control (AEC) up to 50db, Automatic Gain Control (AGC) and a minimum illumination of 0.5lux the SEEME is at the top of the pack with respect to performance.

It also leverages a **no-slip adjustable mount** that allows mounting on both thin laptop screens as well as thicker external displays. No matter what business you're in, the SEEME is an ideal camera at the right price.
