

CONTROL PANELS, ORGANIZED.

Precision-engineered **DINSTORAGE** fuse and accessory storage solutions provide everything you need to organize your electrical rooms, equipment racks, and electrical panels. Finally, all your control panel accessories and spare fuses can be stored and organized securely providing quick access at the point of use.

FITS IEC/EN 60715 DIN RAILS

All **DINSTORAGE** rail accessories are designed to fit standard 35mm DIN rails. One snap is all that's needed to organize and store a wide range of fuses, electrical accessories, consumables, and tools.

FLEXIBLE

With a wide range of capacities, sizes, and styles, **DINSTORAGE** has a solution for your every application. With its toolless quick-detach DIN rail mount, you can quickly and easily rearrange, relocate, and reconfigure units to accommodate future additions.

RUGGED

Our housings are injection molded using impact-resistant polypropylene to stand up to the harsh environments and abuse that comes from commercial and industrial applications.

AFFORDABLE

The patented-pending **DINSTORAGE** family of products is the most capable and lowest cost DIN rail-compatible storage solution on the market.

PRODUCT FEATURES

- Conveniently store and protect spare fuses and control panel accessories at point-of-use.
- One-click or adhesive mounting means no screws, bolts, or complicated installation techniques. **DINSTORAGE** installs in seconds onto your existing DIN rail or flat surface.
- Drawer units for other accessories, oddly shaped fuses, and small tools expand your options for creating custom configurations for each location.

Say goodbye to unorganized control panels.

After designing and building industrial and commercial control panels for over 20 years, we were always looking for a better way to store our panel accessories and fuses. Fuses and accessories were either missing or in the bottom of the panel.

DINSTORAGE is our solution for elegant and organized accessory storage.
