The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

The D-code Ethernet product range manufactured in the USA will be upgraded to Advanced Shielding Technology (AST). As a result, the previously used crimp shielding sleeves will be replaced by the AST design. The overmold will be somewhat thinner and the product technically improved. Advanced Shielding Technology from Phoenix Contact is the innovative shielding concept for data, sensor and power cabling. The large-area, material-bonding 360° shield connection is unique on the market and optimizes the current design of M8 and M12 connectors.

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	Yes

Transaction Dates

Date modification goes into effect from Germany:	6/1/2022
Expected first shipment (from Phoenix Contact) of the modified products(s):	6/1/2022
