

Product Change Notification

PCN-FDC-9039-2023

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
FDC - Field Device Connectors	ABR	Product Change Notification	Notify Distributors and Field	9/14/2023

The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

The flanges of the angled, rotatable M17 and M23 PRO series device connectors is being adapted. The sealing groove and outer geometry of the 28 x 28 mm flange are being changed due to increasing demands on process and delivery capability.

In both connector versions, the black O-ring placed in the sealing groove on the underside will be replaced by a green molded seal. This change improves process reliability during production and ensures safety of the base seal during transport.

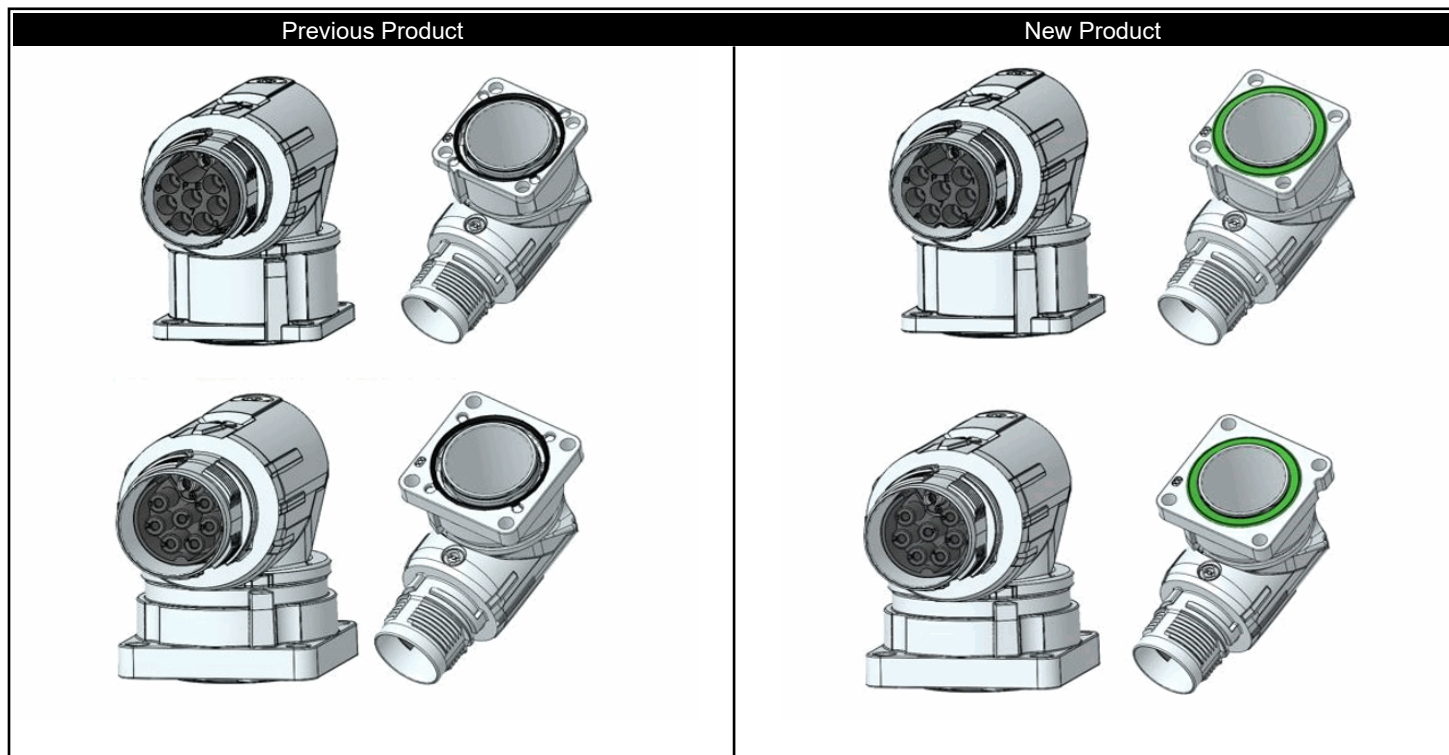

Additionally, to improve process reliability during assembly, the contour on the outside of the 28 x 28 mm flange will change. See the images attached for more details.

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	No

Transaction Dates

Date modification goes into effect from Germany:	3/1/2024
Expected first shipment (from Phoenix Contact) of the modified products(s):	3/1/2024

Product Change Notification

Should you have any issues with the timeline or content of this product change, please contact Phoenix Contact using the information below. Customers should acknowledge receipt of the PCN within 30 days of delivery of the PCN; provided, however, that the failure to acknowledge receipt does not affect the product change or the effective date thereof.
