

ESD Floor Mat Ground Cable – 15 FT**Product Description**

Our ESD floor mat ground cord offers the common point ground required by ANSI/ESD S-6.1 and ANSI/ESD-S20.20.

It features a molded low-profile mushroom cap and a 3/8" (10mm) snap which ensures a secure connection to floor mats while the #10 ring terminal connects to ground. Please note this comes with a male snap and 1meg resistor.

**Key Features**

- Low profile mushroom cap eliminates trip hazards.
- 10mm (3/8") snap
- #10 ring terminal
- 1meg resistor

Additional Information

Meets or exceeds requirements of ANSI/ESD S20.20 and ANSI/ESD S-6.1.
