

LINT FREE WIPES

4"x4" or 2"x2" Non-abrasive Pad

Provides superior cleaning of optical fiber cable without risk of scratching or lint residue. Lint free, non-abrasive pads used for cleaning optical surfaces, fiber cable, and connector end faces. Available in either standard 4"x4" or economical 2"x2" size to be used with fiber optic cleaning solution. Lint free dry wipes are made from a hydro-entangled, 45/55 cellulose/polyester blend, for optimum purity in a wipe. These wipes have excellent absorbency, and contamination entrapment, as well as high strength. Lint free non-woven dry wipes are ideal as a premium wipe for any fiber optic surface. 4"x4" wipes come in 100 pieces per pack and 2"x2" wipes come in 150 pieces per pack.
