**Subject: Product Discontinuation**

Dear Valued Customer,

The Electronics Group of Henkel is committed to delivering the most comprehensive service and support for our customers. While we would like to continue to supply certain materials indefinitely, sometimes market conditions require a change.

Henkel has been engineering product solutions over many decades. The result is thousands of products spanning multiple chemistries and a variety of performance options. While we believe it is important to offer such a diverse selection of materials, we must also continue to improve our cost efficiencies to meet customers' demand.

For marketing and business strategic reasons, we have discontinued the materials listed in the product table attachment below. Recommended replacement products are listed where available.

There is no change in raw materials or production methods or manufacturing processes or manufacturing site. We apologize for the inconvenience this might cause you. Please contact your local sales representative or our Customer and Product Support Group if you require further clarification. We appreciate your continued business and support.

Yours sincerely,

Andrey Znamensky  
Regional Product Manager – North America  
Henkel Adhesive Electronics
