

# Product change notification (PCN)

**Title / short description** VIP PT- Change to molded slice  
**Affected article category** System cabling for controllers  
**Change category** Form and appearance  
**Change number** CCK230134-00  
**Reason for PCN/PDN Revision**

## Purpose/objective of the change

Minor changes to the visual appearance to ensure supply capability.

## Detailed description of the change

As part of the continuous improvement process, and to reduce material waste, the wire entry and actuator "blind plugs" have been eliminated via the creation of 2L/3L "blank" VIP PT slice element(s). This change ought to impact the visual appearance only, the technical and mechanical properties are not affected. This should be deployed as a "running" change, with the intent of soonest distribution with minimal disruption to open production orders. The change should be denoted by a revision level change of the affected articles. Until the remaining inventory is switched over to the new design, shipments of mixed revision levels may occur.

## Identifying characteristics

Revised blank slice incorporates built-in gating of the wire entry area; separate plugs are no longer necessary.

<b>Start of Production (SOP)</b>	-	<b>Last Time Delivery (LTD)</b>	-
