### **Product Change Notification**

**Title: PCN #00122 TDK-Lambda Americas Inc. Z+ series Micro-controller & Firmware**

#### **Change of Micro-controller and Firmware for the Z+ series**

Please be informed that the main micro-controller and the micro-controller employed in the LAN option for the Z+ power supplies are being changed due to component shortages in the market. This change does not affect Form, Fit, or Function (FFF) of the supply. The only change noticeable to the user is the firmware revision. The new firmware revision will be  $\geq 3.0.0.0$ . It will not be possible to perform a firmware downgrade because of the change in micro-controllers.

Existing inventory will not be affected and we anticipate this change will take effect for non – LAN products shipped beginning in January, 2022; products with the LAN option are planned for April-May, 2022.

For any questions concerning this notification, contact your local sales office or TDK-Lambda Americas Inc. customer service.

A handwritten signature in black ink, appearing to read "Tom Tillman", enclosed within a hand-drawn oval.
