## **Subject: Understanding JST's Prefix and Suffix additions**

**Product Series:**

**Prefix:**

Any prefix at the beginning of a JST part number utilizing brackets such as (D), (W), (G), (Q), (JUK), (C) are used internally by JST to identify the factory ship point and has no functional implications on the product itself.

**Suffix: PHR Series**

<b>Series</b>	<b>Orderable suffix</b>	<b>JST Internal Use Only: no impact to Product</b>	<b>Comment</b>
PHR	(D)		Dry (moisture-proof) packaging
PHR	(DS)		Dry packaging
PHR	(HF)		Halogen-free
PHR	(T)		Tray packaging
PHR		(KO)	Internal JST Use Only to track raw material vendor
PHR		(SU)	Internal JST Use Only to track raw material vendor
PHR		(L)	Internal JST Use Only to track raw material vendor
PHR		(P)	Internal JST Use Only: Information for Japanese Market
PHR		(PP)	Internal JST Use Only: Information for Japanese Market
PHR		(LF)(SN)	RoHS version: (LF)(SN) was an orderable suffix. It is no longer applicable
PHR		#	Internal JST Use Only to track raw material vendor
PHR		.	Internal JST Use Only to track raw material vendor
PHR		;	Internal material changes to packaging
PHR		<	Internal vendor changes to packaging

*ALWAYS Check the Product Data Sheet for any functional meanings of a suffix.*
