

## ema:play Dev Kit Registration Process

### **Thank you for your interest in the OptConnect ema:Play**

After completing the checkout process on the DigiKey website, the ema:Play development kit will ship to your door unregistered and inactive. Once registered to your account and activated, the ema:Play will include 3 months of free connectivity on a 1GB monthly plan.

### **There are two ways to activate the ema device's that ship with the ema:Play development kit's:**

1. Call OptConnect Sales at 877-678-3343 or email at [sales@optconnect.com](mailto:sales@optconnect.com) and chat with a sales rep. Our Sales staff will assign the device to your OptConnect account and will activate the monthly service. Be sure to mention the device was purchased through DigiKey and not direct from OptConnect.
2. Use the convenient ema Activation Link: [summit.optconnect.com/ema](http://summit.optconnect.com/ema) to walk through the registration process. After the activation process is complete via the link, please allow some time for the device to activate. The activation process will simply request registration/activation from OptConnect's operations staff who will complete and finalize the process.

The ema:Play kit is also pre-provisioned with Canopy, an IoT platform built for enterprise businesses. Canopy takes real time data from the ema and centralizes it into a cloud-based portal for business-critical application management. Visit [banyanhills.com/canopy-iot-platform](http://banyanhills.com/canopy-iot-platform) or speak with your OptConnect sales representative to learn more.

Thank you once again for trusting OptConnect with your embedded wireless cellular needs. We're pleased to serve you and look forward to helping however possible. Please call us anytime for questions or assistance.
