

Product Change Notification

EK2100-220 & EK5100-220 End of Life Notification

Issue Date: October 1, 2019

Effective Date: October 1, 2019

Devices

Part Number	Description
EK2100-220	SNAP Evaluators Kit - includes SN132 Paddleboard, SN171 Protoboard, 2 RF220UF1 modules and supplies for experimentation
EK5100-220	SNAP Application Development Evaluators Kit - Includes SNAP Connect E20 Gateway, SN132 Paddleboard, 2x SN171 Protoboard, 3x RF220UF1 modules and supplies for experimentation

Description of Change

The Evaluation Kits listed above has been transitioned to End of Life and will no longer be offered for sale. See below for recommended alternatives.

Reason for Change

These kit were move to Limited Availability status 2 yrs ago due to the high cost of maintaining their associated software libraries and the technical resources needed to support experimenters and hobbyists. As intended, demand has dropped off and qualified developers can now be supported by supplying the individual hardware components used in the kits.

Recommended Alternative Product(s)

The individual hardware components available in these kits (SN132-001, SN171GG-NR, RF220UF1 and SC020-010) continue to be available for purchase but the software based learning exercises associated with these kits will no longer be maintained and may not be compatible with the latest hardware and firmware in these products. Developer resources continue to be available at <https://developer.synapse-wireless.com/>
