

**PCN823:** Carling Rocker Switch Terminal Press EHS Process Improvement

**Issue Date:** March 5, 2024

Dear Valued Customer,

This PCN notice is to inform you of a process change affecting selected Littelfuse items that you have purchased.

**Description of the Change:**

We will be changing the press used in terminal insertion for switches in the attached list. Currently the press operates as a stroke and pulley mechanism, and we will be updating to pneumatic presses. The die set that performs the cutting and insertion of terminals into the switch base will not change.

**Reason for The Change:**

We will update the press to improve the safety of our operators that interact with this assembly process.

**Effective Date of the Change:**

This will be conducted as a running change, effective within March 2024.

**What You Need to Do:**

No action is required on your behalf. Based on our analysis, this change is considered low risk and will not affect fit, form, or function of the products.

If you have any questions, please contact your Customer Service or Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Luisa Cuevas  
Associate Product Manager  
Littelfuse Commercial Vehicle Products
