

## Re: WAGO e!COCKPIT End of life notice

WAGO's Automation platform, first launched in 1995, continues to expand their product line with new controllers, couplers, I/O and software. Ultimately, we know the life cycle of each specific product is bound to end. No product has an infinite lifespan and we would like to take the time to hereby inform you of our intention of discontinuing our e!COCKPIT and other related items.

### Background of discontinuation:

WAGO is in the process of integrating the manufacturer-independent CODESYS 3.5 automation software for our line of controllers including the PFC200 Controller family, Touch Panels and Edge Controllers. We will also offer CODESYS 3.5 for our PFC100 line of controllers in the near future. CODESYS is established as an open standard for IEC-61131 development and provides the functions and technologies used for state-of-the-art automation. WAGO will discontinue e!COCKPIT as it is based on CODESY 3.5 and would therefore be redundant.

### Products/Versions being discontinued:

Item Numbers (x=1: anonymous; x=0: personalized)	Item Name
2759-0101/111x-2002	e!COCKPIT workstation license
2759-0101/111x-2005 / ...2010 / ...2015 / ...2020	e!COCKPIT multi-user license, 5 / 10 / 15 / 20
2759-0101/1110-3000	e!COCKPIT site license
2759-0101/1110-4000	e!COCKPIT buy-out license
2759-0401/142x-1000	Add-on e!COCKPIT SVN
2759-0402/142x-1000	Add-on e!COCKPIT UML
2759-0403/142x-1000	Add-on e!COCKPIT Static Analysis
2759-0404/142x-1000	Add-on e!COCKPIT SVN Profiler
2759-0120/112x-1000	Add-on e!COCKPIT MTP
2759-0263/021x-1000 or 2759-0266/021x-1000	e!RUNTIME EtherCAT 300 / 600
2759-0273/021x-1000 or 2759-0276/021x-1000	e!RUNTIME EtherNet/IP 300 / 600
2759-0216/021x-1000	e!RUNTIME PLC 600
2759-2230/021x-1000	OPC UA Client
2759-2233/021x-1000 or 2759-2236/021x-1000	OPC UA Server Extended 300 / 600
-	e!COCKPIT Add-on Solution Builder
-	OPC UA Mapping Editor

**Last call date:**

December 31<sup>st</sup>, 2023 is the last-call date. The last-call date is the latest date on which you can order the items. This is the last time we will be able to confirm the items you ordered. No further orders can be processed after the last-call date. In addition, online operation of e!COCKPIT versions < 1.10 will end at this time, since communication with the WAGO license server requires a modification that cannot be accomplished in older versions. It will still be possible to use the e!COCKPIT software with version 1.10 and above.

**Discontinuation Deadline:**

The discontinuation deadline for the above listed products is March 31<sup>st</sup>, 2025. This means that support for the products will be discontinued on this date, and no further updates of any kind will be provided.

**Alternative options:**

You can continue to operate new and existing PFC200 G2 Series, Touch Panels 600 Series and the WAGO Edge Controller with the new CODESYS 3.5 engineering platform and supporting WAGO tools. This requires use of firmware version 23 or higher. The CODESYS 3.5 engineering tool and WAGO device firmware are available for download for no charge from our Download Center at:

<https://downloadcenter.wago.com/>

To help you with converting existing applications from e!COCKPIT to CODESYS 3.5, WAGO offers an online migration guide, which you can find in the WAGO Download Center. [Migration Guide – from e!COCKPIT to CODESYS V3.5 \(wago.com\)](#)

Please contact a WAGO representative if you have questions on the transition from e!COCKPIT to CODESYS 3.5 or contact our technical support line at 1-800-DIN-RAIL.

Sincerely,

WAGO Corporation
