

## Product Advisory

Issue Date: 24-August-2023

**Change Description:**

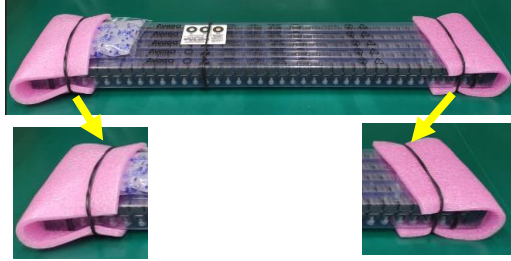

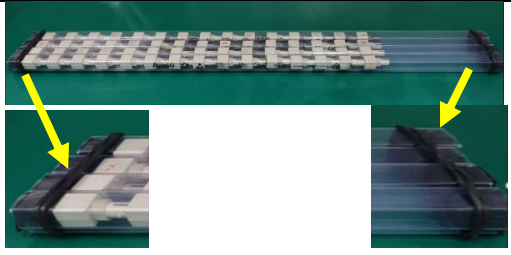

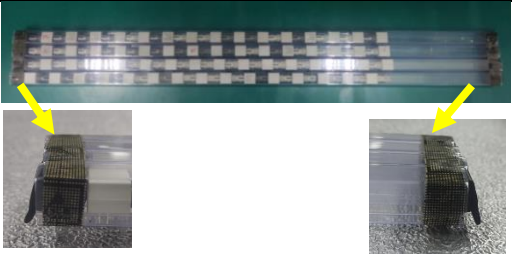

Change bundling material for TUBE and TRAY from using rubber band to ESD Conductive Grid Tape.

**Parts Affected:**

**Description and Extent of Change:**

Change bundling material for TUBE and TRAY from using rubber band to ESD Conductive Grid Tape as below photo example.

Packaging	Current Packaging: Rubber Band	New Packaging: ESD Conductive Grid Tape
TUBE with vacuum seal	 <p>Three images showing a tube of components secured with a pink rubber band. Yellow arrows point to the band on the top, bottom, and side views.</p>	 <p>Three images showing a tube of components secured with ESD conductive grid tape. Yellow arrows point to the tape on the top, bottom, and side views.</p>
TUBE	 <p>Three images showing a flat tray of components secured with a black rubber band. Yellow arrows point to the band on the top, bottom, and side views.</p>	 <p>Three images showing a flat tray of components secured with ESD conductive grid tape. Yellow arrows point to the tape on the top, bottom, and side views.</p>
TRAY	 <p>Image showing a stack of clear plastic trays secured with two black rubber bands.</p>	 <p>Image showing a stack of clear plastic trays secured with two ESD conductive grid tapes.</p>

**Reasons for Change:**

To reduce the risk of TUBE and TRAY deformation.

**Effect of Change on Fit, Form, Function, Quality, or Reliability:**

No change in Fit, Form and Function on the product.

**Effective Date of Change:**

Product shipments using this change will begin after 09/11/2023. Timing of shipment of the changed part will vary by part number depending on customer demand, and inventory levels.
