

For the Love of SOD Diode Footprint PCB Ruler

FEATURES

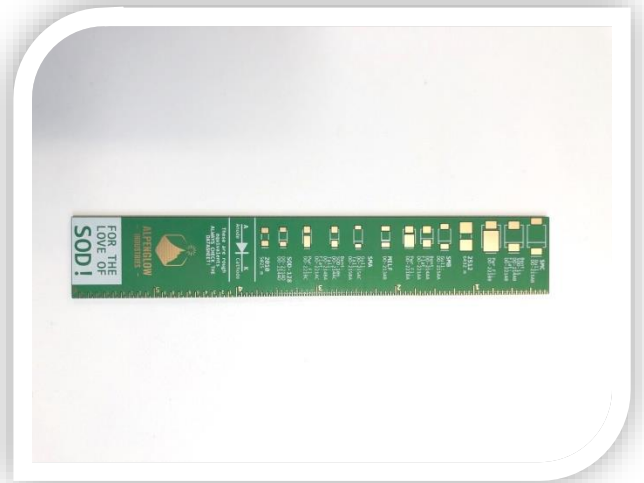

- ◆ 6" PCB Ruler
- ◆ 1/32" and 0.1" marks
- ◆ cm marks
- ◆ Every diode pattern imaginable
- ◆ Every SOD, SC, and DO name for each pattern, plus more!
- ◆ Organized biggest to smallest
- ◆ Diode symbol

APPLICATIONS

- ◆ PCB Layout
- ◆ Sourcing alternate parts

DESCRIPTION

If you're staring bleary-eyed at a parametric search result, wondering what the heck a SOD-87 footprint is, we have just the ruler for you. Introducing **For the Love of SOD**, PCB layout's hottest new ruler. This ruler has EVERYTHING: SODs, SM(X)s, 0402s, SCs, DOs, even MELFs. So the next time you're playing everyone's favorite game "Crap, is a SOD-532 one that I can hand-solder?", you can just whip out your 6" tool and see for yourself. By the way, a SOD-87 is the same as a DO-213AC. Or a Mini-MELF. Because you can never have too many standards.
