

## Statement of Compliance

### Requested Part

25 June 2024

MPR20H1K0J

(Part 1 of 1)

**TE Internal Number:** 3-1623809-9

**Product Description:** MPR20 1K0 5% 250PPM

**Part Status:** Obsolete

**Mil-Spec Certified:** No

**EU RoHS Directive 2011/65/EU:** Not Yet Reviewed

This declaration covers EU Directive 2011/65/EU incl. Delegated Directive 2015/863/EU.

**EU ELV Directive:** Compliant with Exemptions

2000/53/EC 8(e) - Lead in high melting solders greater than 85% by weight.

**China RoHS 2 Directive:**  Restricted Materials Above Threshold  
MIIT Order No 32, 2016

**EU REACH Regulation:** Current ECHA Candidate List: **JAN 2024 (240)**  
(EC) No. 1907/2006 Candidate List Declared Against: **JUN 2015 (163)**  
SVHC > Threshold:  
Not Yet Reviewed

**Halogen Content:** Not Yet Reviewed for halogen content

**Solder Process Capability Code:** Wave solder capable to 265°C

TE Connectivity Corporation

1050 Westlakes Drive

Berwyn, PA 19312

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change.

The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked.

Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV).

Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as OSA (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA 'Guidance on requirements for substances in articles' (June 2017, version 4.0) and will be updating its statements accordingly.
