Features

Industrial-Grade HDMI Cable Recommended for Outdoor or Harsh Indoor EnvironmentsThe industrial-grade P569-012-IND2 (M/M) connects high-speed digital audio/video and Ethernet components in outdoor applications and other areas where protection from harsh elements is essential. The cable and male HDMI connectors are designed to withstand dust, debris and moisture that could threaten your infrastructure. This rugged cable is ideal for industrial areas, such as factories and warehouses, and unforgiving outdoor installations, including malls, bus stops and stadiums. For best performance, use the cable with an industrial coupler, surface mount box and/or face plate. Check the web manual for a list of products that can be used.

IP68-Rated Ends Resist Dust and WaterBoth HDMI connectors are protected by a molded IP68-rated watertight hood. The IP68 rating means the connectors are not only 100% protected against dust, but also able to endure immersion in 1.5 meters of water for up to 60 minutes with no damage or decline in performance*. This makes the P569-012-IND2 ideal for basement and other applications where dust, debris and water are present.
